"Starting off with a personal guide was the best thing we elected to do. He was able to present the story from the view of someone that was there that day and how everything turned upside down."
- BernardE224, Virginia (TripAdvisor)

"A reflective, yet not too somber tour of Ground Zero and the surrounding area with our friendly and knowledgeable guide who not only gave an account of the events of 9/11 but also put it into the context of the past, present and future of the WTC."

9/11 MUSEUM ENTRY

The 9/11 Museum contains artifacts from the events of 9/11. You'll be able to hear recordings from people who were there that day.

"The guide fully explained everything and told us of amazing stories of survival which we hadn't heard. The museum is tastefully set out as a living reminder of the many lives lost. One darkened room shows pictures and videos of those lost and family members reminisce – we found it extremely powerful and moving."

ONE WORLD OBSERVATORY ENTRY

The Observation Deck is a marvel of engineering and architecture. Immersive LED displays, interactive touch screen video, and dining options mean there's plenty to do, but the true draw is the view—hundreds of feet above even the impressive New York Skyline stretching across all of Manhattan.

"I will never forget the experience. Everyone responsible for creating and maintaining this experience is to be commended. The technical expertise and artistic vision behind this endeavor speak to the American spirit. Everything is flawlessly executed, and you will be awed."
